Investment update - October

Following our latest Investment Committee meeting, changes were made to the Defensive strategy during October's quarterly rebalance. The Henderson Index Linked Bond fund was sold, with some proceeds being reinvested into the Threadneedle Sterling Short Dated Corporate Bond fund, with the balance being retained as cash. The Henderson fund disposal represents a continuation of our current policy to reduce longer duration risk within our strategies. Our Investment Committee felt that it was still too soon to be increasing equity risk, which continues to target a 5% weighting within the Defensive strategy, given we are about to enter uncharted waters; the replacement of a decade's worth of crisis monetary policies is likely to be quite troublesome. Furthermore, geopolitical tensions in Spain, North Korea and wider afield have introduced further 'risk-off' moments. Closer to home, UK economic growth and the pounds prospects look particularly uncertain due to Brexit as well as the prospect of higher interest rates and tighter credit controls.

Defensive Strategy

Bordier UK Managed Portfolio Service

Our Platform Managed Portfolio Service (PMPS) has been awarded the maximum Defaqto 5 stars as a solution for advisers to manage client assets on a third party platform. The service offers five investment growth strategies ranging from Defensive to Adventurous and is available on the following platforms; Ascentric, Aviva, FundsNetwork, Fusion, Novia, Nucleus, Praemium, Seven Investment Management, Standard Life, Transact and Zurich.

Investment objective

The objective is to preserve capital in real (inflation-adjusted) terms over the medium to longer term. Investors should expect low levels of reward and a low correlation to stockmarket behaviour, including modest fluctuations in values.

Risk score

Our strategies are constructed around five investment strategies, each with a differing commitment to equities via collective funds and other asset classes. This strategy is managed with a maximum target of 20% invested in equity markets at any given time and has been categorised as a Bordier UK risk score:

Model performance

	1mth	6mth	YTD	1yr	3yr	5yr	Start*
