**Investment update - July**

Stockmarkets seemingly paused for consideration during July following the strong start to year. Early month gains stalled as trade war rhetoric between the US and China heightened, whilst further potential headwinds towards the end of July included the US Federal Reserve lowering interest rates by 0.25% as well as the increased possibility of a no-deal Brexit. During the month our Investment Committee maintained the Cautious strategy's neutral stockmarket exposure at 30%, though altered the underlying geographic composition. Exposure to Europe and Japan was reduced through the sale of the JOHCM Continental Europe and Man GLG Japan CoreAlpha funds as both regions are likely to feel the brunt of the US/China trade war whilst continuing to be unresponsive to central bank monetary stimulus. The proceeds were allocated to the US through the purchase of the M&G North American Dividend fund, which should provide a bias to quality, inexpensive growth opportunities with dividend-paying prospects. Elsewhere in the strategy, the decision was made to sell the AXA Sterling Short Duration Bond fund whilst adding the Janus Henderson Strategic Bond fund, increasing duration exposure slightly as we potentially enter a lower interest rate environment.
