Investment update - August

Although the press 'silly season' is drawing to a close, President Trump fittingly continues to dominate headlines. His tweets at the beginning of August stating that the U.S. would put an additional 10% tariff on \$300 billion in imports from China had marked consequences; Chinese exports to America fell by 16% in August whilst Chinese imports of US goods fell by around 22%. The US/China trade tensions had further consequence on world equity markets, with increased volatility leading to markets recording their second negative monthly period of the year. Talks of recession have also contributed to volatility as President Trump ramps up the pressure on the US Federal Reserve to cut interest rates to stave off any potential threat. Closer to home, Brexit continues to act as a headwind. The initial lurch towards a 'no-deal' Brexit and subsequent political upheaval has brought the situation into greater focus and contributed to a further decline in the pound and increased uncertainty in financial markets. With the aforementioned headwinds coming to the fore, no changes were made to the Adventurous strategy during August as we maintain our neutral stockmarket exposure, which continues to reflect both the longer-term opportunity and shorter-term uncertainty that is currently being presented.
