**Investment update - September**

September saw world markets rise as investors returned, potentially revived from their summer holidays. During the period, both the US and Europe undertook further monetary easing in the face of a continued slowdown in global economic data (particularly within the manufacturing sector), whilst in the UK, the uncertainty over Brexit continued to cloud the outlook for the economy. It is evident that the US/China trade war continues to play a prominent role in the slowdown in growth across most major economies and it remains unclear as to whether a resolution will develop, with further tariffs set to come into place later this year. The Growth strategy remained unchanged during September, however as we enter another potentially difficult period for markets, our Investment Committee continue to proactively seek to protect the hard-earned gains made so far this year and position the strategies to take advantage of a potential buying opportunity. With this in mind, our Investment Committee are looking to undertake a risk reduction exercise that can be achieved without reducing our commitments to equity markets. Our neutral stance in equities reflects the balance between continued opportunities supported by additional central bank stimulus, but also some caution from slowing economic growth/profits/margins.

**Managed Portfolio Service**

Our Managed Portfolio Service ('MPS') has been awarded the maximum Defaqto 5 stars as a solution for advisers to manage client assets directly with Bordier UK. The service invests actively in collective investment funds, which helps to ensure that investors benefit from a diversified spread of investments across a wide range of different asset classes, not just in the UK but in overseas markets as well.

There are five investment strategies for you to choose from. Each has its own risk profile and all of them are actively managed by us to ensure that we meet your investment goals. You can choose an income option in all our risk strategies, which means that you could benefit from regular income from your investments as well as potential long-term capital growth.

**Investment objective**

The objective is to build capital in real (inflation-adjusted) terms over the medium to longer term. Investors should expect a high correlation to stockmarket behaviour and rewards, including significant fluctuations in value, with only moderate protection in times of market weakness.

**Risk category**

The strategy is managed with a moderately high attitude towards risk with a maximum target of 80% invested in global equity markets at any given time and has received a Defaqto Risk Rating 6 - Medium Risk.

**Model performance**

	1mth	6mth	YTD	1yr	3yr	5yr	Start*

## About Bordier UK

Bordier & Cie (UK) PLC ('Bordier UK') is a specialist investment manager that promotes a long-standing culture of consistency and excellence, whether in the performance of our portfolios, the service given by our staff or the quality of our reporting.

Bordier UK focuses on managing the wealth of individuals, families and trustees. We manage portfolios for pensions, trusts, charities, offshore bonds, livery companies, institutions and welfare committees, as well as investments from our own staff. Working alongside professional advisers and managing investment solutions on behalf of their clients is core to the Bordier UK business.

Bordier UK was previously known as Berry Asset Management, one of the country's most widely respected private portfolio management firms. The team that led Berry Asset Management continue to run the business to this day.

Bordier UK is part of the Bordier Group. The Bordier Group is built on solid foundations, with a strong Tier 1 capital ratio of 28%. Established in Geneva in 1844, the Bordier Group operates in six countries across three continents, managing assets of circa £10.6bn for approximately 4,000 families (Source: Bordier & Cie as at 30 June 2019).
