Investment update - October

October saw world markets continue to gather momentum, seemingly borne out of relief rather than optimism. The ongoing US/China trade discussions continue to dominate global market direction, with President Trump's 'phase one' trade deal providing markets with a boost. Closer to home, the threat of a no-deal Brexit has seemingly abated but with an election around the corner, the question remains for how long. The diminished risk of a no-deal saw the pound strengthen over the month, adversely impacting the UK stockmarket where many companies report international earnings. With geopolitical tensions balanced precariously, October saw our Investment Committee undertake a risk reduction exercise to protect the hard-earned gains made this year. Whilst equity exposure remained neutral, the Cautious strategy saw the sale of the AHFM Defined Returns and Fortem Capital Progressive Growth funds – both structured investment funds sensitive to a sudden reappraisal of risk in equity markets. Furthermore, the Merian Global Equity Absolute Return fund was sold due to concerns over its performance and downside protection capabilities. The proceeds were invested into the Vanguard UK Government Bond Index fund and existing absolute return funds as well as held as additional cash, which in the short term we are happy to hold as we await a potential buying opportunity to exploit.
