

Hybrid Passive solutions

Why Bordier UK

Bordier UK is a specialist investment manager whose core business is working with financial advisers to manage investment solutions on behalf of their clients. We are part of the Bordier Group, which was established in Geneva in 1844, and who currently operate in six countries across three continents. The Bordier Group manage around £16bn of assets.

Investment philosophy

Our philosophy can be summarised as uncomplicated yet reassuring, with a focus on wealth preservation and a devotion to meeting client expectations. We take no direction from benchmarks, instead choosing to have freedom and flexibility in our forward-looking, proactive approach to asset allocation. It is a tried and tested methodology that we've operated in the UK for over 40 years.

Differentiated approach

Our approach is exemplified by our allocation to alternative investments. We believe that the primary objective of an 'alternatives' allocation should be to provide an uncorrelated return profile to traditional asset classes – a key characteristic many portfolios lack. We utilise long/short market neutral funds to support our focus on wealth preservation.

Fund picking expertise

Our highly experienced research team, whose experience spans various market cycles, focus on identifying tomorrow's winners. With no internal funds, the team are unconstrained to analyse the entire market and have a successful track record of selecting managers who have outperformed their relative benchmarks and peer groups.

High conviction management with no client left behind

Market-leading efficiency to execute highly active asset allocation and fund selection changes across our range of investment solutions. Our high conviction approach, with timely implementation of key investment decisions, ensures good client outcomes.

Our Hybrid Passive solutions

Our Hybrid Passive solutions offer you access to our discretionary fund management capabilities at a lower cost through the combination of active and passive collective investments. The propositions provide a solution that, when cost considerations are paramount, does not compromise on quality.

Our five actively managed Hybrid Passive investment strategies - Defensive, Cautious, Balanced, Growth and Adventurous - are managed by our experienced Managed Portfolio Service team and

monitored by our central Investment Committee to ensure consistency of performance from one portfolio to another.

Our robust centralised investment process is designed to contain risk and volatility to acceptable levels, and to ensure that portfolios are managed within the chosen strategy's mandated equity risk tolerance. Portfolios can be held within general investment accounts, ISAs and SIPPs.

- **Risk graded strategies:** each strategy has a different level of risk and potential return, with risk categorised by equity market exposure that increases in increments of 20% for each strategy.
- **Robust and repeatable:** our centralised investment process ensures consistent implementation of asset allocation and fund selection relevant to each client's risk profile, helping provide consistent outcomes across all client portfolios.
- **Risk management:** consistent implementation ensures appropriate risk management and reward relevant to your risk profile and risk/return expectation.
- **Track record:** a long record of producing strong and consistent risk-adjusted returns.

As at 31 March 2025.

Hybrid Passive solutions

Hybrid Passive Balanced strategy - example overview

Investment objective

To build capital in real (inflation-adjusted) terms over the medium to longer term. Investors should expect reasonable correlation to stock market behaviour and rewards, including quite sharp fluctuations in values, but also some protection in times of market weakness.

Risk profile

The strategy is managed with a maximum target of 60% equity market exposure and is categorised as a Bordier Risk Profile 3 and Defaqto Risk Rating 5 (Balanced).

Asset allocation

Sector	Fund name	Holding
UK equity	Montanaro UK Income	3%
Asia-Pacific ex Japan equity	Invesco Asian	3%

bordier | 1844

Defaqto 5 Star Rated

We have achieved and retained, over the past thirteen years, the maximum Defaqto 5 Star Rating for our Wealth Management Service (bespoke) and Managed Portfolio Service ('MPS') offerings. Our Platform MPS offering has been 5 Star Rated since the inception of Defaqto's DFM MPS on Platform Rating category in 2014.

We are one of only three discretionary fund managers ('DFM') to have achieved these highest three Defaqto DFM Star Ratings across this period.
